CONTENTS

No. 1, January, 1944

Utilization of Fixed Nitrogen by Azotobacter and Influence on Nitrogen Fixation. C. Kenneth Horner and Franklin E. Allison 1
The Antibacterial Action of Surface Active Cations. E. I. Valko and A. S. DuBois. 15
Microbiological Aspects of Riboflavin. I. Introduction. II. Bacterial Oxidation of Riboflavin to Lumichrome. Jackson W. Foster 27
Microbiological Aspects of Penicillin. VI. Procedure for the Cup Assay for Penicillin. Jackson W. Foster and H. Boyd Woodruff 43
A Comparative Study of Materials Suitable for the Cultivation of Clostridia. Harriette D. Vera 59
Germicidal Action of Daylight on Meningococci in the Dried State. C. Phillip Miller and Doretta Schad 71
The Resistance of Meningococci to Drying. C. Phillip Miller and Doretta Schad 77
Observations on the Effect of Ultra Violet Irradiation (Knott Technic) on Bacteria and Their Toxins Suspended in Human Blood and Appropriate Diluents. George P. Blundell, Lowell A. Erf, Harold W. Jones and Regina T. Hoban 85
Demonstration of Sulfonamide Inhibitor Production by Bacteria on Agar Containing Sulfonamide. Robert M. Pike and Alice Zimmerman Foster 97
Misuse of the Name "*Trichophyton rosaceum*" for a Saprophytic *Fusarium*. C. W. Emmons 107
Lack of Correlation between Plate Tests and Phenol Coefficient Determinations on Germicides and Antiseptics. Walter C. Tobie and Gilbert B. Ayres 109
Effectiveness of Penicillin on *Listerella*. E. J. Foley, Jeanne A. Epstein and S. W. Lee. 110
Proceedings of Local Branches of the Society of American Bacteriologists, Eastern Pennsylvania Branch 113

No. 2, February, 1944

Aerobic Decomposition of Cellulose by Thermophilic Bacteria. H. C. Murray 117
The Variation of Group C Hemolytic Streptococci. Harry E. Morton and Harriet E. Sommer 123
Studies on the Gonococcus. I. Constituents of the Cell. Herbert E. Stokinger, Helen Ackerman and Charles M. Carpenter 129
Studies on the Gonococcus. II. Properties of an Antigenic Fraction Isolated from Cell-Free Gonococcal Broth Supernatants. Herbert E. Stokinger, Helen Ackerman and Charles M. Carpenter 141
Studies on the Gonococcus. III. Quantitative Agglutinative Reactions of the Neisseria with Special Reference to *Neisseria gonorrhoeae*. Herbert E. Stokinger, Charles M. Carpenter and Jane Plack 149
Vitamin Requirements of Lactose-Fermenting and Certain Other Yeasts. M. Rogosa. 159
An Arabinose-Fermenting Bacterium of the Lactose-Negative, Mannitol-Negative Shigella Group. W. Blake Christensen and G. Howard Gowen 171
The Bactericidal and Bacteriostatic Action of Crystal Violet. C. E. Hoffmann and Otto Rahn 177
Studies on *Aspergillus flavus*. II. The Production and Properties of a Penicillin-Like Substance-Flavacidin. Clara M. McKee, Geoffrey Rake and Carol L. Houck 187
Penicillin. I. Methods of Assay. William H. Schmidt and Andrew J. Moyer 199
The Comparative Value of Human Plasma and Human Whole Blood for Testing the Coagulating Power of Staphylococci. George H. Chapman 211
The Isolation of Pathogenic Staphylococci from Feces. George H. Chapman 211

Proceedings of Local Branches of the Society of American Bacteriologists, Kentucky, Eastern New York and Texas Branches 213

No. 3, March, 1944

Studies of the Effect of Sodium Azide on Microbic Growth and Respiration. I. The Action of Sodium Azide on Microbic Growth. Herman C. Lichstein and Malcolm H. Soule 221
Studies of the Effect of Sodium Azide on Microbic Growth and Respiration. II. The Action of Sodium Azide on Bacterial Catalase. Herman C. Lichstein and Malcolm H. Soule 231
Studies of the Effect of Sodium Azide on Microbic Growth and Respiration. III. The Effect of Sodium Azide on the Gas Metabolism of *B. subtilis* and *P. aeruginosa* and the Influence of Pyocyanine on the Gas Exchange of a Pyocyanine-Free Strain of *P. aeruginosa* in the Presence of Sodium Azide. Herman C. Lichstein and Malcolm H. Soule 239
Studies of the Effect of Sodium Azide on Microbic Growth and Respiration. IV. The Effect of Sodium Azide on Glucose Fermentation and Lactic Acid Production by Streptococci and Lactobacilli. Herman C. Lichstein and Malcolm H. Soule. 253
Local Application of Sulfonamides to Experimental Staphylococcus Infections. F. W. Hartmann 259
The Combined Bacteriostatic Activity of Sulfanilamide and Azochloramid upon Streptococci in *in vitro* and *in vivo* Studies. F. M. Skelton 273
Electron Microscope Studies of the Bacteriophage of *Salmonella pullorum*. M. R. B. Baylor, J. M. Severens, and G. L. Clark 277
On the Growth Requirements of *Neisseria gonorrhoeae*. R. Gordon Gould, Lewis W. Kane and J. Howard Mueller 287
Vitamin Content of Ingredients of Microbiological Culture Media. J. L. Stokes, Marion Gunness and J. W. Foster 293
Butyribacterium, a New Genus of Gram-Positive, Non-Sporulating Anaerobic Bacteria of Intestinal Origin. H. A. Barker and Victoria Haas 301
The Nutritional Requirements of *Clostridium acidi-urici*. H. A. Barker and W. H. Peterson 307
A Rapid and Accurate Method for Testing Penicillin Production by Different Strains of *P. notatum*. Selman A. Waksman and H. Christine Reilly 308
The Formation of Trimethylamine from Choline as a Characteristic of *Shigella alkalescens*. A. J. Wood and Frances E. Keeping 309
Proceedings of Local Branches of the Society of American Bacteriologists, New Jersey Branch 311

No. 4, April, 1944

Investigations on the Dehydrogenating Properties of Certain Pathogenic Obligate Anaerobes. Karl Guggenheim 313
A New Salmonella Type, *Salmonella carrau*, with Special Reference to the 1,7 · · · Phases of the Kauffmann-White Classification. E. Hormaeche, C. A. Peluffo, and V. Ricaud de Pereyra 323
A Non-Life Cycle Explanation of the Diphtheroid Streptococcus from Endocarditis. Carl Lamanna 327
Nutrition of the Enterococci. C. F. Niven, Jr. and J. M. Sherman 335
Nutrition of *Streptococcus lactis*. C. F. Niven, Jr. 343
The Decomposition of Allantoin by Intestinal Bacteria. E. Gordon Young and W. W. Hawkins 351
Oxidation of Alcohols by Non-Sulfur Photosynthetic Bacteria. Jackson W. Foster .. 355
Carbohydrate Utilization by Hydrocarbon Bacteria. Frank H. Johnson and Horace W. Schwarz 373

A New Style Assembly for Fritted Filters. Harry E. Morton 379
A Study of the So-Called Marburg and the Lawrence and Ford Strains of *Bacillus subtilis*. Georges Knaysi and I. C. Gunsalus 381
The Nature of the Antibiotic Substances Produced by *Aspergillus fumigatus*. Selman A. Waksman and Walton B. Geiger 391
Use of Liver Extract as an Enrichment Factor for the Growth of Gonococci. E. Alture-Werber 399
Substitutes in Culture Media. V. Bennett McMahon 400
A Simplified Technique for the Agar Cup Assay of Penicillin. Louis S. Cholden 402
Proceedings of Local Branches of the Society of American Bacteriologists, Maryland, Illinois and New Jersey Branches 405

No. 5, May, 1944

Scientific Proceedings, Forty-fifth General Meeting of the Society of American Bacteriologists, New York City, May 3 to 5, 1944 409
Index of Authors 481

No. 6, June, 1944

Editorial Note 485
Microbiological Agencies in the Degradation of Steroids. I. The Cholesterol-Decomposing Organisms of Soils. G. E. Turfitt 487
Mechanical Aids in the Direct Microscopic Method of Counting Bacteria. Carl Olson, Jr. and Frederick G. Warren 495
Microbial Thermogenesis in the Decomposition of Plant Materials. Part III. Simplified Equipment for Routine Studies. W. V. Bartholomew and A. G. Norman 499
Bovine Intracutaneous and Serological Reactions to Fractions of *Trichomonas foetus* (Protozoon). Muriel Harden Svec 505
The Nutritional Requirements of a Strain of Type III *Pneumococcus*. Elizabeth Badger 509
Survival of *Rickettsia prowazeki* in Different Diluents. Charles R. Anderson 519
Electron Micrographs of Pleuropneumonia-Like Organisms. Lucile Jamieson Weiss 523
The Action of Sulfonamides and of Para-Aminobenzoic Acid on *Bacterium tularense*. Joseph T. Tamura 529
Codehydrogenase I and Other Pyridinium Compounds as V-Factor for *Hemophilus influenzae* and *H. parainfluenzae*. Wendell Gingrich and Fritz Schlenk 535
Observations on the Electron Microscopy of *B. cereus*, and Tyrothricin Action. Frank H. Johnson 551
Decomposition of Guayule Resins by Microorganisms. Paul J. Allen, J. Naghski and Sam R. Hoover 559
The Effect of Penicillin on Experimental Streptococcus, Pneumococcus and Staphylococcus Infections of the Egg Embryo. Jeanne A. Epstein, E. J. Foley and S. W. Lee 573
A New *Salmonella* Type Isolated from Man and Fowls. P. R. Edwards and Hope Hughes 574
A Staining Method for *Corynebacterium diphtheriae*. M. A. Gohar 575
Species Differentiation within the Genus *Shigella* by Test for Reduction of Trimethylamine Oxide. A. J. Weil and J. Black 575
Proceedings of the Society of American Bacteriologists, Connecticut Valley, New Jersey and Eastern New York Branches 579
Index 583
